### **FOR IMMEDIATE RELEASE**

#### **Addition of New Intellectual Property Attorney Strengthens a Core Competence of Patent Law Firm**

#### *Vern Maine & Associates' David Rardin Admitted to NH Bar*

NASHUA, NH – November, 2007 - The intellectual property law firm of Vern Maine & Associates is pleased to announce the admission to the New Hampshire Bar of registered patent agent David A. Rardin. Rardin holds a J.D. from Pierce Law in Concord, N.H., a Bachelor of Science degree in physics from the University of Massachusetts at Lowell, and specializes in intellectual property law and technology transfer as it applies to software, electrical, and mechanical arts.

Rardin was formerly employed as a senior scientist with Science Applications International Corporation (SAIC) working on RF emissions testing of computers, microprocessor nuclear hardness testing, and knowledge-based development for the Army AI Lab with MIT. He also worked on telecommunications automation software for the FAA. Previous to that, Rardin worked as a physicist in the U.S. Air Force at Wright Patterson AFB as test director for a Joint Service F-15 infrared sensor with contractors AT&T and McDonald-Douglas. He has also worked on the design and fabrication of cryostat equipment for superconductivity/superfluidity experiments for ETH in Zürich, Switzerland.

According to the firm's managing member, Vernon Maine, "David combine's his extensive technical background and project management skills with his professional training to enhance the value of his service to his clients." Rardin currently resides on Plum Island with his wife Donita, and two Newfoundland dogs.

About Vern Maine & Associates:

Established in 1993, Vern Maine & Associates, formerly Maine & Asmus, is an intellectual property law firm providing specialized legal services for a broad spectrum of technology clients, both foreign and domestic, from its home office in Nashua, N.H. The firm focuses its practice on the intelligent planning and execution of intellectual property strategies including the prosecution and licensing of patents and trademarks, to advance clients' business objectives.
